

Religious Exemption Resources:

Peggy Hall- The Healthy American

There are multiple options available for free on this site, she also has several videos explaining how to fill the forms out.

<https://www.thehealthyamerican.org/religious-exemption-letter>

Andrew Torba CEO of GAB:

These forms are free and there are several different options depending on religious belief.

<https://news.gab.com/2021/07/29/important-download-covid-vaccine-religious-exemption-documents-here/>

Clay Clark

New Life Harvest Church

Clay sent this out to his following for a religious exemption which is signed off by the New life Harvest Church based out of Richmond, Virginia. This form is free of charge.

Other options and resources for medical/religious exemptions:

House of Markus Fellowship Attorneys

Private Estate Trust:

This one costs \$33/month for membership/legal backing/support or \$47 for just the documents. These documents list a number of questions for the places mandating the vaccine, which they will not be able to answer. These can be used with any employer, school, anyone enforcing illegal mandates.

<https://www.privateestatetrust.org/>

"You have 14 days to respond to this letter, otherwise I accept your silence as an acquiescence guilt or inability to prove that the vaccination policy is legal." Statement to put in your cover letter, if you wish.

From Alec Zeck of Health Freedoms for Humanity:

Alec is a veteran and West Point Graduate and is currently the Executive Director for Health Freedoms for Humanity. <https://healthfreedomforhumanity.org/>

The following is copied and pasted from an email Alec sent out to military members with multiple options to fight the mandates:

"With that being said, there is steps you can take to ensure your right to health choice. This information is **NOT** medical or legal advice, but rather my opinion/understanding on

steps that can be taken to help ensure your right to informed consent and medical freedom:

-- **You can get an antibody test. If it comes up negative, you can go back for a couple more tests.** AR 40-562 is a joint regulation that states: "Documented medical exemptions for immunity will be accepted as evidence of immunity in lieu of vaccination."

(https://armypubs.army.mil/epubs/DR_pubs/DR_a/pdf/web/r40_562.pdf). Use "control f" and type in antibodies. If you have antibodies towards SARS-CoV-2, you can use this as justification to argue against receiving the shot.

-- **You can have an allergy test done with a doctor/toxicologist or other.** Seek out an independent toxicologist or try and have an allergen test done with your PCM to see if you're allergic to polyethylene glycol (PEG) or other ingredients in the shot (https://portal.ct.gov/-/media/Coronavirus/Community_Resources/Vaccinations/Print-Materials/Fact-Sheets/Ingredients_English.pdf).

-- **You can seek out a religious accommodation.** Use the following link to find the religious accommodation information for your service. These DO exist. At the very least, this accommodation will ensure you do not face UCMJ action for not receiving the shot (<https://u.pcloud.link/publink/show?code=8ab>)

-- **You can seek out a civilian MD or DO in your area that would be willing to write a medical exemption.** I am certain this is possible because I know someone who's succeeded in doing this. Go through your entire medical history, bring up allergies, previous vaccine adverse reactions, etc.. If you are able to receive a medical exemption, ensure that you have it uploaded into Tri-Care and also provide it to your unit medic.

-- **You can make yourself the most valuable person in your unit.** Be so good at your job that they cannot afford to lose you. During the Mandatory Anthrax Vaccine, administrative exemptions were provided by commanders on a case-by-case basis to SMs who did not want the shot.

--**You can seek out other people in your unit and stand up for what's right.** You can find other SMs, band together, and start speaking up for what's right. Do not ever be belligerent-- be loving and kind. Always follow orders that ARE moral, ethical, and legal. If needed and while the EUA is still in place, you can cite 21 US CODE 360bbb-3, which can be found here: <https://www.healthfreedomforhumanity.org/articles> "
